

we

**Member Profile/Business Card.** Each member will have a profile, with the following fields:  
Username (this is the only required field and will be auto-generated from ALA's Association Management System -iMIS)

Image (.gif or .jpg)

Email address

Mailing addresses

Web URL

IM screen names (Yahoo!, AOL, ICQ, etc.)

ALA Community online status

Unit, section, and group memberships (auto-generated from ALA's Association Management System - iMIS)

The email address and mailing addresses will be pulled from iMIS.

**White Board.** Group members are enabled to work together on a common document using file sharing and software tools.

**Online Status of Members/Who's Online.** Members will have the option to display a list of community members currently logged into ALA's Online Communities, with option to initiate private/individual or community online chats.

**Help.** On every page of the community, a link to online help will be available. Online help will include contact information for ALA staff as well as documentation for using ALA Online Community features.

**The system will have the ability to integrate RSS.**
